SCOTT, ADMITS HE IS MAN WANTED FOR MURDER

FEARS ARE ALLAYED ABOUT A HIGHWAY

Wayne D. Myers, District Engineer of State Highway Department, Meets With the Directorate of Chamber of Commerce

IN MATTER OF A HIGHWAY

Assures the Members That the Charleroi-Bentleyville Road, Now Under Course of Construction, Will Positively Not Be Tied Up During Winter

At a meeting of the directorate of the Chamber of Commerce, held in their rooms in the Municipal building last night, Wayne D. Myers, district engineer of the State Highway department, discussed the road building situation in this end of the county.

In the matter of the Charleroi-Bentleyville highway, which is now under course of construction, Mr. Myers assured the members of the body that this road would positively not be tied up during the winter months On the stretch of highway from the foot of Colvin's hill to the intersection of the Taylor Run road, the department is using a special hardening compound, which will allow the road to be thrown open for use in seven days after the cement has been laid, instead of keeping it closed for 21 days as is usually done. This will again make available the Fifth street detour. No more work will be done on the section from Lincoln Avenue extension to the Twin Bridges. Some grading has been done on this portion of the road, but work will stop at once and where the highway has been torn up it will be covered with "red dog," and after today will be available for use until spring. The section from the Taylor Run road to the Twin Bridges will take approximately 35 working days to pour the cement, and after this is done, it will have to stand for 21 days before it can be used. Mr. Myers stated that this work will be finished so that the entire section of the route will be thrown in use before bad weather sets in and can be used all winter. The remaining portion will not be finished before next summer.

On Route 268, the Stockdale-Coal Center road, which has been up for discussion for a number of years, Mr. Myers stated that the labor is progressing to the point that all the preliminary work can be finished in a short time. The survey has been completed and all the right-of-way secured with the exception of an agreement with the Pittsburgh Railways company regarding the moving of its tracks and straightening them out near the Roscoe station. Mr. Myers advised that this could be worked out to a satisfactory conclusion. The councils of the various boroughs can aid materially in the promotion of this work if they will have the proper ordinances prepared and passed, so that when the engineering department is ready to report to the State Highway department, there will be nothing amiss to hold the work up. He stated that it is possible to have this labor advertised this fall, and the contract let so that the contractor may be able to start work early in the spring.

The road leading from Lock No. 4 to Monongahela by way of the Monongahela Valley Country club was talked over with Mr. Myers, and he stated that it was considered by the Highway department as one of the most important connecting links in this end of the state. If this piece of road is improved, it will be an outlet for all traffic from Fayette county to Pittsburgh, and will be shorter than any other route now in use. Fayette county authorities have been endeavoring to get a more direct route to Pittsburgh than following the National Pike to Washington and from there to Pittsburgh, and the Lock Four-Monongahela road is their only hope. In the past little effort has been devoted to this section, for fearing that it might delay the work on the Roscoe road, but Mr. Myers advised to the contrary. He also suggested that an effort be made to have Lock No. Four and Monongahela councils agree to improve that portion of the highway which lies inside the borough limits and then devote their energies to the balance, which would be built on a 50-50 basis by the county and state. Tht members of the Chamber of Commerce will begin an active campaign on this work at once.

ASK TO SURRENDER TELEGRAPH POWERS

The Union Telephone Company of California, the Roscoe Telephone Company and the Charleroi Telephone Company have all filed petitions asking for changes in their charters, eliminating from them that part permitting these companies to conduct a telegraph business. It is desired to surrender this power. The petitions set forth that these companies never intended to enter into or conduct a telegraph business. The final decree will be made after publication of the petions by advertisement.

BLAST FURNACE NEARLY DONE

The work of rebuilding one blast furnace at the Donora Steel Works will be completed on Wednesday, October 1.

It is expected that the furnace will be placed in operation shortly after the date named, albeit no announcement to this effect has been made by the company officials.

It is reported that working conditions, especially employment at the mills of Donora, are constantly getting better.

SUNDAY SCHOOL BOARD MEETS NAMES OFFICERS

An interesting meeting of the Sunday School board of the Methodist Episcopal church was held last evening at the home of Dr. and Mrs. J. W. Ferman of 314 Lookout avenue. The annual election of officers resulted with the reelection of the former officers as follows: J. W. Ferman, superintendent: George Hott, assistant superintendent; Miss Rosetta Rodgers, Junior superintendent; Mrs. Frank Welch, beginners' superintendent; C. R. Welch, secretary; Mrs. C. R. Welch, treasurer; Edwin Hindmarsh and John Halstead, librarians; Mrs. T. L. Pollock and Miss Muriel Baker, superintendents of mission; L. H. Goehring and W. D Pollock, superintendent of temperance; Mrs. J. W. Stephens, teachers' training.

Other routine business matters were discussed, following which luncheon was served by the hostess.

CHILD INJURES HAND WITH PARING KNIFE

Margaret Cadwalter, aged three and one-half years, small daughter of Mr. and Mrs. Kenneth Cadwalter of Charleroi, received a gash in the palm of her right hand yesterday about 4:30, when she fell with a paring knife in her hand at their home. The child was taken to the office of Dr. V. P. Vieslet, where it required two stitches to close the wound.

Rum Fleet Booze Found In An Auto

Three hundred and six quarts of Canadian and English whisky, which it is thought was smuggled into the United States from the rum fleet cruising in the Atlantic, were found in an automobile being driven by a man who gave his name as Stanley G. Fielding, aged 40, of Columbus, O., when the machine was searched by Sergeant E. T. Cohee of the state police yesterday afternoon at Claysville.

Fielding was placed under arrest together with a woman companion, who said she was his sister, Miss Mickey Fielding, aged 24, also of Columbus. They were arraigned before Alderman J. F. Carmichael at Washington last night, the charge preferred against the man being transporting liquor. Two revolvers of .45 calibre were also found on Fielding, according to Sergeant Cohee, but he did not resist arrest.

A false bottom had been cleverly constructed in the machine and it was only through minute and careful examination that the arresting sergeant was able to detect the cargo of contraband. A box on the rear of the automobile was also filled.

The Fieldings, their machine, and cargo were taken to Washington. The whisky was turned over to the office of the district attorney.

Fielding said that he had obtained the whisky at Atlantic City, and was enroute to Columbus. Three varieties were included in the assortment — White Label, White Horse and Haig & Haig. Fielding was fast approaching the West Virginia border, when he was stopped in an authoritative manner by Sergeant Cohee.

Arrested at English, W. Va. Yesterday

Welch, West Virginia, Sept. 24—A negro believed to be James Scott, slayer of Chief of Police [illegible] of West Newton, was held in the county jail here today for Westmoreland county authorities.

The negro, who is said to have admitted he was the man wanted, was arrested by tate police Monday night in Bartley. He was brought here late yesterday for safe keeping.

The search officials today said there was no question that the suspect is Scott, who has been reported under arrest at various times since the murder of Chief Rae in West Newton early on the morning of September 16. Detective Paul Feightner of Westmoreland county and Constable B. P. Peters of West Newton, are enroute to Welch and are expected here sometime today. Both know Scott by sight, and if the suspect really is Scott, he will be taken to Greensburg to await trial.

James Scott, the colored man, who shot Chief of Police George Rae, in Water street, West Newton, at 3 o'clock on the morning of September 16, is being held in English, West Virginia, according to word received at the office of Thomas Conner & Son, at Greensburg, yesterday. The message, which did not state how the arrest of Scott was effected, was from James P. Conner, a member of the firm.

Officers of the law incline to the opinion that thec olored man being held is the one wanted, as Conner formerly employed Scott, and knows him. County Detective Paul Feightner and B. P. Peters, constable of West Newton, both of whom know Scott by sight, left Greensburg last night for English to identify the man being held there under suspicion that he is Scott, the murderer.

Father Mouthey Is Missionary In His Diocese

Father Leo Richard Mouthuy, who Rt. Rev. Bishop Hugh C. Boyle appointed missionary at large among the Belgian and French people of the Pittsburgh diocese, has taken up his residence at St. Leonard's rectory, 721 Schoonmaker avenue, Monessen.

Father Mouthuy is a native of Belgium, and made his preliminary study at Floreffe, Belgium, and was later graduated and ordained at the famous university of Louvaine. It is expected that the Belgium and French people of Charleroi and all surrounding towns will welcome Father Mouthuy among them and avail themselves of the services of a priest of their own blood and tongue. He will gladly welcome anyone of his countrymen who care to call upon him at his Monessen residence.

RADIO FANS TO TRY AND SOLVE INTERFERENCE

For some time the Radio fans of Charleroi have been troubled with an interference they were unable to overcome All investigations into the matter, up to the present time, have been without avail. In order to bring a stop to this interference, a meeting will be held in the Community room of the Borough building, Thursday evening, September 25, at 7:30 o'clock, at which time matters of importance will be discussed.

Every radio owner is urged to be present, whether he be the owner of a large set or one made at home. It seems that this interference is noticeable at the same hour each night from 7 to 10, and during this time radio owners have experienced considerable difficulty in getting stations clearly. A committee of men have been working for some time in the hope of finding out the cause and they will be heard at the meeting tomorrow and give a full report of their activities. Everyone who has not been getting the various stations as early as customary, should avail themselves of the opportunity to attend this meeting in the Borough building.

RINGGOLD CAVALRY ARE TO REUNE

MAN HURT WHEN VEHICLES COLLIDE

Roscoe Man And a Vendor Come Together, With the Result That Huckster Is Badly Injured — Vendor's Horse Dies of Hurts

ACCIDENT LAST EVENING

Collision Occurs Near Dunlevy —Wounded Man Taken to the Charleroi-Monessen Hospital— Automobile Badly Damaged, Owner Being Arrested

Frank Nero, aged about 35, of Dunlevy, a huckster, is in the Charleroi-Monessen hospital, suffering with a fractured hip, as a result of a collision last night shortly after 7 o'clock, on the road at White Barn, a short distance from Dunlevy, when wagon he was driving was completely demolished and the horse so badly injured that death relived its sufferings this morning.

W. Jenkins, said to be from Roscoe, driving an Oakland touring car, was slightly injured and his car badly damaged. The collision occurred as the two vehicles were driving toward Dunlevy The wagon, minus a light, received the full force of a crash when the Oakland car plunged headlong into it, throwing the huckster from his seat and scattering the fruit about the highway.

The Oakland was badly damaged and could not be used to bring the injured man to the Charleroi-Monessen hospital. Nero was placed on a street car and the Charleroi ambulance met the car in Charleroi, and took him to the local hospital, where his injuries are being administered to.

Jenkins was placed under arrest and released on bail pending the condition of Nero.

FORTY-SIX MEN ARE NATURALIZED

Forty-six men of alien birth were [illegible] Monday after examination by Judge James I. Brownson. None was refused. Judge Brownson, after the men had been sworn, made a very straightforward talk, along the line of "good citizenship," making clear what is expected of them as American citizens. He told them a real honor had been bestowed on them in being given the right of franchise in the United States. Others were to be called for examination and receipt of citizenship papers yesterday.

CHURCH TO BE USED BY HOLIDAY

It is expected that the work of improvement by the erection of an additional wing, et cetera, on the Riverview Baptist church at Monongahela, will permit the use of the comparatively new structure by Christmas.

Construction of the addition to the church building involves no little labor, but the congregation is aiding the contractor and workmen in the labor involved, and when the edifice is completed, the church will be one of the most beautiful in this section of the country.

Flood Waters Leave In Wake Tangled Wreckage, Ruined Dwellings

Moscow, ept. 24—Floow waters which inundated parts of Leningrad to a depth of 10 feet when the Neva burst its banks were receding [illegible] today, leaving in their wake tangled wreckage, ruined dwellings and streets and a possibly heavy death toll.

Diminishing cries for help were heard throughout the night as rescue parties struggled in pitch darkness against the swirling floods, the city's [illegible] systems being completely ruined.

A terrific storm sweeping the Gulf of Finlay yesterday caused a great wall of sea water to enter mouth of the historic river, which flows through the former Russian capital. The river's artificial bank burst, loosing a wave which washed over the lower city, taking the inhabitants by surprise.

Winter palace square, which once was the scene of glittering martial reviews when Leningrad, now named for the dead communist leader, was known as St. Petersburg, home of the Czars, was submerged.

Within a short time, calls for help reached Moscow and relief parties with food and first aid outfits started for Leningrad.

Shortly before midnight word came that the wind storm in the Gulf had calmed down and permitted the flood waters to recede.

Traffic gradually was resumed in the flooded streets of Leningrad, although the trains were [illegible] function.

Down the Nevsky prospect, once one of the world's most famous thoroughfares, rushed a raging torrent. Trees along the sidewalks were uprooted. Pedestrians caught by the flood ere dashed against shop windows, horses and carts were [illegible] about; frantic cries added to the confusion. Those who sought to [illegible] down side streets found the [illegible] swirling upon them from every direction.

Mayor Kendrick Says He Is The Boss In The Case of General Butler

Philadelphia, Sept. 24.—Urged on one side by politicians to boost General Butler as director of public safety and on the other side by judge authorities and civic organizations to turn the service of the marine general, Mayor Kendrick literally "blew up" today and issued the following statement:

"In the last analysis I am the mayor of Philadelphia, and I am going to be mayor. I am not going to be coerced, intimidated or bluffed. If I cannot have a man in my cabinet who will cooperate with me I will put in another, even if I have to change them every day.

"I had the 'guts' to bring Butler here, and I have the 'guts' to fire him if I consider it necessary."

Philadelphia, Sept. 24—Brig. Gen. Smedley D. Butler, director of public safety here, was reported "resting easy" this morning, following a relapse last night.

The general is ill at his home, and physicians are fighting to ward off pneumonia and other complications which threaten to develop. A minor sinus operation was performed by Dr. [illegible]

Butler was taken ill with a severe cold during the Holy Name Society parade in Washington Sunday. He was ordered to his bed immediately upon his return here.

While talking over the telephone last night to Assistant Director of Public Safety Elliott, the director fainted. Heart specialists and eye, ear and throat specialists were summoned into consultation by Dr. Owen, chief police surgeon.

BOXING COMMITTEE TO HOLD ONE MORE BOXING SHOW AT BASE BALL PARK HERE

Under the auspices of the Athletic committee of the Charleroi Elks Club, the next super-boxing attraction or boxing tourney staged by the committee will be held at the Charleroi Baseball park on Tuesday evening, September 30. In the big double wind-up, Young Saylor of Charleroi will meet Joe Moore of California, Pa., just home from the Pacific coast; Willie Davis of Roscoe will try conclusions with Hugh Manson of Homestead, and there will be [illegible] liminaries.

Davies and Manson met here several weeks ago, with Davies being declared the winner; but the mill was close and exciting, and their meet on September 30 promises to be one of the most thrilling in boxing annals as they appertain to the squared areas in Charleroi.

GENARO GETS THE VERDICT OVER BUSHEY GRAHAM

Frankie Genaro, valiant little Italian, gave four and a half pounds to Bushey Graham, the highly touted Utica bantam, at Henderson's Bowl in Brooklyn last night and won eleven out of 12 rounds that they battled.

Genaro weighed 113 pounds, just one notch above the flyweight limit while his opponent scaled 117½, a half pound under the bantamweight limit. Graham, who is no boy to be sneezed at in a fistic way, put up a game and desperate battle, but Genaro was too smart for him. Frankie was also the hardest hitter of the two.

Graham had only one of the 12 rounds. That was the second and he took this session by only a narrow margin.

All the other rounds were won by Genaro in rather impressive fashion. Frankie floored Bushey in the fourth and again in the twelfth with clean shots to the chin. On several other occasions he had the Utica boy wobbling about on unsteady legs. Genaro brought crimson floods from Graham's left ear, his eyes and his mouth in the course of the scrap. The battle was witnessed by a small audience and was the last boxing show of the season to be staged at Henderson's Bowl.

PRINCIPAL OF SCHOOLS HURT AT NEW EAGLE

C. S. Wilkins of Belle Vernon, principal of the New Eagle schools, was injured at 5 o'clock last night at New Eagle, when the Ford coupe in which he was riding was struck by a southbound Charleroi car.

Prof. Wilkins, who was returning home after visiting at the homes of several of his pupils to ascertain the reason why they had not reported for school, was driving his car across the street car tracks, when his engine stalled in the path of the oncoming street car.

The motorman was unable to stop the car, and it crashed into the Ford, demolishing it. Prof. Wilkins suffered a number of cuts and bruises about the head. He was taken to his home in Belle Vernon and reported for duty this morning, but was unable to carry on his work.

PIRATES LOSING TO GIANTS DIMS THEIR PENNANT CHANCES

Hugh McQuillan, who was rescued from Boston by the Giants last year, put a plug in the pennant aspirations of the Pirates yesterday when he held them under a magic spell while the McGrawmen won a 5-to-1 victory, which places them so near the flag that no contingency or a collision with Mars could hardly drag them out of their commanding lead.

Lee Meadows engaged in a hurling duel with McQuillan in holding the Giants down by his hurling, as he had been touched for but four safeties when he was sidetracked to try a pinch hitter. But the strategic move was a useless effort. Don Songer, the portly southpaw from Oklahoma City was on the firing line in the eighth, and he repeated his performance of the other day in Brooklyn by keeping the opposition at a safe distance.

Jimmy O'Connell's circuit-girdling clout into the right wing of the grand stand in the fourth inning, delivered immediately after Lindstrom had made the first Giant swat of the afternoon, was the wallop that broke up the game and left John McGraw's outfit in a position to fear but one thing and that is the Pirates might yet retard their progress to such an extent that the Robins could squeeze into the coveted lead.

McQuillan's airtight twirling overcame the crippled condition of the club. Grch and Frisch being out and as he put every ounce of smoke he possessed on the ball, it was comparatively easy for the patched-up Manhattanites to march triumphantly through the struggle. They were let off with five swats, only one of which came while Songer was in the box. Seven were credited to Pittsburgh.

The 20,000 fans who saw the combat were divided in their rooting and the Forbes Field representatives found many staunch friends in the throng who were pulling loyally for the Pirates to down their foe but they had McQuillan to reckon with and he ruled with an iron hand.

STRANGE COLORED MAN ARRESTED BY THE POLICE

MAYOR HYLAN IS LOOKING INTO IMMORAL SHOWS

New York, Sept. 24. — "Vigorous trench language which fills many lines of one of the latest Broadway plays, "What Price Glory?" has caused Mayor Hylan to start an investigation of shows which parade "nudity, obscenity, and profanity."

He suggested that Police Commissioner Enright, Rear Admiral Plunkett, and Gen. Bullard form an investigating committee after complaints had been received concerning the play and scanty costumes in other Broadway favorites.

"What Price Glory?" depicts the struggle between a marine captain and sergeant over the hand of a French girl. It was written by two New York newspapermen, one of whom served with the marines overseas.

AN INSURANCE COMPANY SUED

Paul Kolla and his wife, Mary Kolla, of Bentleyville, have filed suits against the Home Insurance Company of New York, and the Omaha Liberty Fire Insurance Company of Omaha, Neb., in which $1,000 is claimed in each action. These sums are alleged due on two insurance policies covering a two-story frame building in Bentleyville, destroyed by fire on November 3, 1923. The policies were originally held by Samuel Nixon and assigned by him to the plaintiffs.

Harry Overand, of Webster, has filed a suit for damages against Clyde E. Nixon, of Bentleyville, in which $22.22 is claimed. This sum is alleged due for damage done an automobile of the plaintiff when run into by a Ford coupe of the defendant on the Finleyville-Pittsburgh road on March 23, 1924.

Patsy Conti, et al., doing business as James V. Conti & Sons, Monessen, has filed a suit against Joseph Bar[illegible] claimed $366.10, alleged due as a balance on a bill for merchandise sold the defendant.

In the suit of George Black against the County of Washington, the plaintiff has appealed from the award of the viewers, which gave his no damages. The action grows out of a road improvement in Allen township.

"Cry" means 5c for candy; "weep" means $69.85 for a spring coat.

HERE'S WHAT COULD HAPPEN "IF" AND "IF"

With Washington, by keeping pace with and two games ahead of the world champion Yankees, now virtually assured of the American League championship, the Giants' chances to repeat brightened as the crippled McGrawmen pulled a full game away from the closely pursuing Pirates and Dodgers, by defeating the former while the latter were losing to the Cubs.

The Giants can afford to lose one of their remaining five games and still win the pennant, for Brooklyn must win all of its remaining three games to have a look in unless the other contenders curl up completely. If the Giants and Pirates divide the two battles in which they have yet to clash and win all subsequent engagements and the Dodgers win all three of their games, the final standing would be:

	W	L	Pct.
New York	94	60	.61006
Brooklyn	93	61	.60357
Pittsburgh	92	61	.60168

As Pittsburgh has seven games yet to play and New York five, there are numerous possibilities. If Pittsburgh should win its two remaining games with New York the result of the race might be in doubt right down to the final games of both clubs. But another defeat for Brooklyn would practically eliminate the Dodgers and another Pittsburgh defeat by New York would all but insure the Giants copping, for New York has only the Phillies to meet in the closing series of the campaign while Pittsburgh must play five games with the hope wrecking Cubs.

In the American League, the Senators are favorites at long odds, as both they and the Yankees have but five games left to play and the schedule somewhat favors Washington which meets the floundering Redsox after quitting Chicago, while the Yanks must engage the stubborn Athletics after tomorrow's final engagement with Cleveland.

Newark, Sept. 24.—Ad Stone, Philadelphia marine, has been made a slight favorite in the betting for his go tonight with Young Stribling.

Origin of Earring

Gypsies, some Spaniards and Italians and renegade tribes of Indians still cling to the ancient custom of piercing the ear and suspending various grotesque figures from it. The idea of piercing the ear has gone into almost universal disuse, although at one time the medical profession even suggested that piercing was beneficial to the organ of hearing.

Long before the dawn of civilization earrings were almost as important in jewelry as today. At the height of her power Greece adopted the earring, both men and women wearing it. The Grecians were the pace-setters in styles in those days, it would seem, for the Romans did not incline so noticeably toward the movement until it had been well grounded in Athens.

Then Rome wasn't satisfied with the limitations of the earring, so her style dictators proceeded to make variations. The distinctiveness of the earrings in Rome was the addition of weight.

Neon Lighting

For the first time in Great Britain an installation of neon lighting is now being applied outside the London Coliseum. The apparatus is one of the most interesting evolved since the introduction of electric lighting. Neon lighting is carried out by means of glass tubes from which the air has been exhausted and replaced by a small quantity of pure neon gas at a pressure very much below ordinary atmospheric pressure. This neon gas is rendered incandescent by the passage of a high voltage alternating current, passing between two metal electrodes fitted at the ends of the tube, the color of the incandescent gas being a peculiarly rich form of flame color. By means of a rotary converter the direct current supplied from the street mains is converted into alternating current that is required to operate the light.—Chemical Age (London).

THE DEPARTMENT SHOWS FIGURES

Harrisburg, Sept. 23.—During 1923, the State Highway department said today, 1481 second-class townships in Pennsylvania collected $11,239,671.64 for road purposes and, in addition, they expended approximately $5,750,000 which they borrowed or for which bonds were issued.

The second-class townships of Pennsylvania, during 1924, are estimated to have spent $18,000,000.

Some interesting figures are revealed by the Highway department's study of township expenditures.

Allegheny county has the lowest average millage of taxes for road purposes, 4.03 mills. The highest is in Wyoming county, which levies a tax of 17.06 mills.

Cameron county has the lowest average cost of tax collections, 1.68 per cent. Beaver county has the highest, 4.16 per cent.

Fulton county reports the lowest average tax collected per mile of township road, $45.95. The highest is reported by Cambria county, $535.10.

The lowest average assessed valuation of property per mile of township road is reported by Potter county, $5,745.89; and the highest is in Allegheny county, $65,705.51.

In the sixty-six counties in Pennsylvania there are 1,510 second-class townships. Only 1,483 of these townships reported to the Highway department, although, by law, all must submit annual reports.

The assessed valuation of property in the townships in 1923 was $1,396,478,257.81. In these townships there are 74,875 miles of road.

The highest assessed valuation reported to the Department is that of Washington county townships, $90,684,049. The lowest is Centre county, $923,017. Cameron county is next lowest with $979,331.66.

GIRL OF 14 IS VICTIM OF A FIEND

Pittsburgh, September 24—Little Viola Kelley, aged 14, is in a serious condition at her home in Bronx as a result of being attacked by a man near Squaw Run while selling candy to campers.

Constable Jessup and a party of campers searched the river bank in pursuit of the man, but he escaped in a canoe. The girl, whose parents are poor, has been selling home-made candy to campers to pay her way through school.

A professor says present day children are as good as their parents were. That ought to shock some people.

Oil Your Car at 60 Miles an Hour!

YOU'RE rushing along in your Cleveland Six at 60 miles an hour. A squeak or rattle develops.

Do you stop and get out the grease gun? Or endure the noise until you get back home? Not at all!

You simply step on a convenient plunger and the noise is instantly silenced.

That's why the "One-Shot" Lubricating System ranks as one of the great advances in motor car design.

It enables you to lubricate all moving chassis parts without leaving the driver's seat.

It does more than save time and eliminate greasy hands or garments. It insures easier riding, smoother operation, longer car life and higher re-sale value—all because it makes chassis lubrication too simple and easy to neglect.

Because of the sheer value it represents, the 1925 Cleveland Six is winning new buyers at a rate that makes it one of the most popular six cylinder cars of the day.

Here are some of the reasons for that popularity.

Mileage Motor—a matchless master of hills with a flashing get-away in high gear.

4-Wheel Brakes—of Cleveland Six design, optional at a moderate extra cost—

Full Balloon Tires—extra comfort at no extra cost.

Beautiful Bodies—smart, durable and luxurious.

FIND CHILDREN GROW FASTER IN THE FALL

Maximum Gain Between August and September.

New York.—Children between the ages of four and thirteen, both girls and boys, grow faster and better during August and the three following months than at any other period of the year, according to results of careful study into the question of child nutrition by the New York Association for Improving the Condition of the Poor.

Boys make 55.3 per cent and girls 59.8 per cent of the total yearly growth between August 1 and December 1. The period of maximum gain is in the late summer and early fall, and the period of minimum advancement falls in the late spring and early summer.

While the same tendency holds for both boys and girls, it is most marked among the girls.

The following table gives the average gain in pounds by months and the percentage of the annual gain made in each of the months of the year:

Months	Boys Av. gain in lbs.	Boys Pct. of annual gain	Girls Av. gain in lbs.	Girls Pct. of annual gain
January	[illegible]	[illegible]	[illegible]	[illegible]
February	.61	7.6	.43	6.7
March	.43	6.4	.36	5.6
April	.43	6.4	.34	5.3
May	.25	3.7	—.05 x—	.8
June	.06	.9	.08	1.3
July	.26	3.9	.35	5.4
August	.89	13.2	.79	12.3
September	1.01	15.0	1.06	16.6
October	1.00	14.8	1.00	15.6
November	.84	12.3	.99	15.3
December	.51	7.6	.53	8.4
Total yearly	6.74	100.0	6.41	100.0
Aver. monthly	.56	8.3	.53	8.3

xIn May the girls showed an average loss of .05 pound. This is equivalent to 0.8 per cent of the total gain.

The report says:

"The rate of growth in both height and weight over a given period of time is quite as important, in judging a child's state of development as his attained stature and weight at any given period. Physicians, teachers, school nurses and nutrition workers must rely on the gains made during short periods of from three to six months to determine whether the child is doing well, for obviously all healthy children must be expected to gain steadily in both height and weight."

American Cities' Debts Grow Billion a Year

New York.—The bonded indebtedness of municipalities of the United States continues to increase, and new securities are being issued at the rate of about a billion dollars annually, according to a commentary upon the debt of more than two hundred cities by C. E. Rightor, chief accountant, Detroit bureau of government research. A tabulation gives the classified debt of the various cities, the net bonded debt and the per capita debt on January 1, 1924.

The average per capita debt of all cities of 2,500 or more is $70.80, but the per capita debt ranges from $258.62 for Norfolk to $10.96 for Quincy, Ill., omitting Washington, D. C., which has only a few old bond issues outstanding. The per capita indebtedness in general is below that of thirteen principal Canadian cities, in which it ranges from $363.05 in Edmonton, Alberta, to $112.02 in Hamilton, Ontario.

Efficiency in Use of Fuel Shows Increase

Washington.—Efficiency in use of fuel by public utility power plants has increased 33 1-3 per cent in the last four years, according to a statement issued by the Department of Interior, which shows that a ton of coal in 1919 produced 625 kilowatt hours of electricity, compared with 835 hours in 1923. The total amount of electricity generated increased in this period from 39,000,000,000 kilowatt hours to 55.7 billion kilowatt hours.

What the Banker Can Tell

The quickest and most satisfactory reference is a bank.

Credit, or reputation for industry and ability—it's the same in both cases. The banker is the man whose opinion will carry most weight with the individual to whom application has been made for credit, or a loan, or a job, or a contract.

Many a man has forged ahead faster because his banker knew him and was able to speak in his favor.

We're not stressing our importance.

Our whole thought is—don't you need a bank account here, and the helpful, broad, interested service this Bank offers?

NOT YET QUITE HAPPY.

The wheat farmer ought to be happy, but they—or many of them—are not. Contrary to expectations there is an immense crop of wheat from even a cut-down acreage and the producers are busily selling it at prices averaging an increase of 25 per cent. But complaint comes from prospering wheat farmers that the corn crop is limited and sells at a dollar, corn having got a bad start in the spring and failed to recover. Speaking from the local farmers' point of view, the Emporia (Kans.) Gazette vividly describes the situation as follows:

"The chickens can't afford to eat dollar corn. It takes a ten cent hog to eat dollar corn, and there are no ten cent hogs. The eight cent steer doesn't dare touch dollar corn, or his owner will go into bankruptcy. It would be better for the Kansas farmer to bring his steer and hog to the west line of the State and keep them there rather than to feed dollar corn at the present price of live stock. The horse can't eat dollar corn and compete with fifteen cent gasoline. And if the folks in the house try to eat dollar corn, they might better eat turkey and tropical fruits."

In other words, what is welcome to the corn producers is an abomination to the wheat farmers, but does anybody remember aperiod wherein everything as just right for everybody?

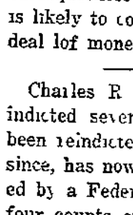
September 12, our "defense day," happened to be the 6th anniversary of perhaps the greatest of American arms—the capture of the St. Mihiel salient from the German, who had held it since the early days of the war. With his million men, nearly all Americans, Pershing showed a surprised world what even a hastily trained American army could do.

Venice, which has long lived, largely on foreign tourists has little to offer them but St. Mark's a few ancient palaces and the oar-driven gondola. The abolition of the last named will take away a full third of the picturesquesness if not quite a half and is likely to cost the Venetians a good deal lof money.

Charles R Forbes, who was first indicted seven months ago, and has been reindicted at irregular intervals since, has now once more been indicted by a Federal Court in Chicago on four counts of conspiracy and graft. After so much preliminary there ought to be a trail before Thanksgiving and later some chance of punishment.

The news that the contending Chinese stop fighting when it rains has been received with superior smiles of amusement, but among the ancients—and the Chinese are ancient as well as modern—the issue of battle not infrequently depended on whether the rain slanted into the faces of one army or the other.

The campaign now has a chance to warm up, for it can no longer be true as people traveling about the country have reported, that the public is more interested in Leopold and Loeb than in politics.



THE OFFICE CAT

The fisherman who has the hook to show, when he brags about the big fish that got away, has it "all over" the other chap who has nothing but his word concerning his almost-big-catch story. (But who believes the tales of summer fishermen, after all?)

A woman can have just as much brains under a curly head of hair, as she can under a straight bob.

The man who cusses crooked officials most loudly is often times an expert tax dodger.

Girls, "Keep that school girl complexion —on the boys' coats.

There was an old lady named Vaughn,
Had nightmares from eve until dawn,
The reason is clear,
For of storms she had fear
And she slept with her life-saver aughn.

When some men call themselves self-made, Mother Nature likely is glad to shift the blame.

The small town man never will be able to understand where the city people get all their money.

The reason a metropolis laughs at a village is that a village thinks a barn fire is more important news than a divorce case.

Our oldest laws are the Ten Commandments. What the world needs most is just simply a respect for old age.

It only takes a wedding to make a fellow learn—he thought that she was his'n, but found that he was her'n.

The bloom of youth was on her cheeks,
There in the moonlight's glow,
But how the bloom got on his lips,
You're not supposed to know.

Entirely too many guls get married to keep from being old maids.

The trouble with most "Whirlwind campaigns" is that the candidate gets lost in his own dust.

The thin, slick-haired man never joyed by the fat bald-headed man when he walks under a stretch of shade trees with his hat off.

OUT OF HER LINE.

Movie Director—Can you swim, my dear?

Applicant—Certainly not! I'm applying for a position as a bathing beauty, not a fish.

It's all right to make hap while the sun shines, unless one has hay fever.

Season is so far advaned now perhaps bathing beauties will get out of the path of the camera and into the water.

Pity the poor gul who can't decide whether to teach another year or accept the poor dub and not risk waiting.

Early to bed and early to rise.
Preserves your liver, teeth and eyes,
To cheek imparts a rosy glow—
But for what purpose I don't know

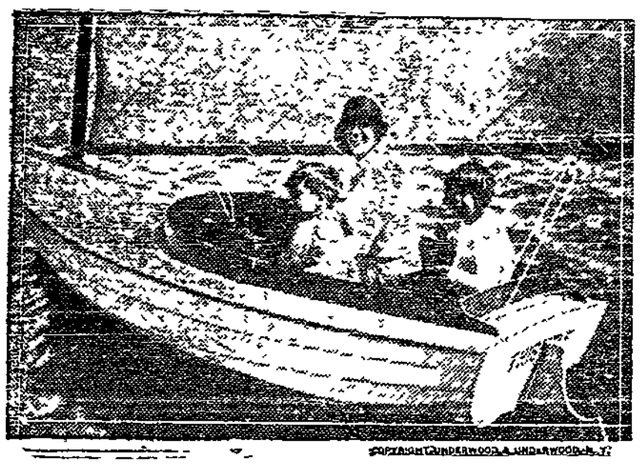
U. S. MARINES LANDED AT SHANGHAI AS CIVIL WAR TEARS CHINA

Photo shows the American and English quarter of Shanghai, China. Like the rest of the city, it is now being guarded by sailors and marines from foreign warships, 250 men of the U. S. M. C. having been landed to protect lives and property of Americans during the Civil War which is now rending China—except when it rains. Shanghai is under rigid martial law and even foreigners are thoroughly searched for weapons, even if they carry passes, when entering the Chinese quarters of the famous port.



JUVENILE SAILORS

The Good Maxwell—
The Good Friend of its Owners

Tens of thousands of American families look upon their good Maxwell cars with a feeling akin to positive gratitude.

For the good Maxwell has enabled them to regard the motor car as something more than merely a means of transportation.

If you examine into the basic reasons for such performance, and for Maxwell's economical, care-free service, you discover that both the new transmission and new rear axle are strong and rugged enough for a truck; that the simple device of a platform spring under the front end of the motor, combined with the balancing of reciprocating parts to the fraction of an ounce, practically eliminates any sense of vibration; that in proportion to weight, it is actually stronger than cars costing two, three or even four times as much.

MR. MERCHANT:

Have you ever thought of this?

YOU may be entertained by news of the Yanks and the Giants, but you are not vitally interested unless you have money at stake; and the shifting of European boundaries doesn't affect you half so much as the softness of your mattress, the comfort of your shoes, what you ate for breakfast, how much your last hat cost.

That's why advertising news deserves as much attention as sporting or international news. The advertisments keep you informed of all the latest comforts and conveniences that can make your daily living more delightful. They tell where to secure the best, how to save money, how to lessen work, have a better home, better food, better clothes, more luxuries.

You can't keep up with the daily news---the kind that affects you most ---unless you read the advertisements.

They are the chronometers of local time. You'll find it highly profitable to adjust your living by them.

Advertising is the only news that really saves you money--read them all. The wide-awake merchant has his own little story to tell in the Mail advertising columns.

Mr. and Mrs. D. W. Sims have returned to their home on Washington avenue, after spending a pleasant vacation with Mr. and Mrs. Ellis White of New Castle, Ind., former residents of Charleroi. They made the trip by motor.

Miss Betty Robertson, teacher in the North Charleroi school, spent the week end at the home of her parents, Mr. and Mrs. L. J. Robertson of New Kensington. She was accompanied home by her aunt and uncle, Mr and Mrs. L. B. Robertson of Fifth street, who also visited with her parents, Mr.. and Mrs. E. B. Payne of Lookout avenue, have returned to their home after an enjoyable few days' visit at the Robertson home in New Kensington.

In Society's Realm

The Kensington of the Christ Lutheran church will be held Thursday afternoon, September 25 in the church rooms with Mrs. Henry Braun, Mrs. Brickner and Mrs. McLarem as hostesses. A good attendance of members is anticipated.

The Sewing Circle of the Washington Avenue Presbyterian held a called meeting at the home of Mr. and Mrs. Charles Pearce, 312 Washington avenue, last evening, at which time plans were made for the annual Bazar, to be held December 5 and 6.

A party was given in honor of Dorothy Cupp, aged 10 years, daughter of Mr. and Mrs. Steve Mayernick, at the family home 1009 McKean avenue, last evening, that was attended by about 25 of the boy and girl friends of the miss. Dorothy was the recipient of many gifts, and time was passed in the playing of games, after which luncheon was served.

Twenty members of the Charleroi Council, No. 162, D. of A. and three members of the California Council, motored to erryopolis Tuesday evening and attended the council meeting there. They were conveyed to Perryopolis in the large bus, "Miss Monessen." Following the meeting the members retired to the room below, where a dainty luncheon was serve and a good time enjoyed by all, returning home in "Miss Monessen."

Miss Elizabeth Kresnak, who celebrated her eleventh birthday anniversary yesterday, was honor guest at a party last night at the home of her parents, Mr. and Mrs. Mike Kresnak of 424 Lincoln avenue, when twenty-two girl and boy friends gathered to spend an evening of merrymaking. Games, singing and dancing were the chief diversions and at a late hour luncheon was served by Mrs. Kresnak. Hallowe'en favors were given each guest. Miss Elizabeth received many pretty gifts.

Mrs. J. R. Crouch of Meadow avenue, entertained last evening in honor of Miss Julia Staranko, who celebrated her seventeenth birthday anniversary yesterday. The affair, which was a delightful one, was a complete surprise to the honored guest, and ten of her friends gathered at the Crouch home and spent a highly enjoyable evening in dancing, games and social converse. The radio entertained the guests for a while. Luncheon was served by Mrs Crouch at the conclusion of the evening. In departing the guests wished Miss Julia many happy returns of the day.

MUSICAL TEA TO BE GIVEN ON OCTOBER 4

At a meeting of the Federation of Women's organization of Charleroi held yesterday afternoon in the Chamber of Commerce room of the borough building, plans were formulated for a Musical tea to be given at the Elks club, Saturday, October 4, for the benefit of the Charleroi-Monessen hospital. Mrs. W. B. Pflegghardt, president of the organization, presided at the meeting. The affair promises to be a big social event, and its unbounded success is anticipated by all.

"THE TURMOIL" COMES TO MAJESTIC

"The Turmoil," a study in human life itself, and a spectacular expose of the working of the souls of American men and women, will be shown at the Majestic Friday and Saturday, two days only.

Hobart Henley's new Universal-Jewel production, adopted from the celebrated novel by Booth Tarkington, and is literally the author's story transcribed page by page to the screen. Henley made a great success a year or more ago with another Tarkington story, "The Flirt," but his second Tarkington transcription is hailed by pre-release critics as a veritable masterpiece.

The story deals with the turmoil in the home of a self-made millionaire, arrogant, powerful and stubborn, who with iron hands, bends a rebellious family to his will. An artistic son is forced to the unhappiness of a money-mad struggle in business; a daughter-in-law, waspish and fortune-hunting, pits her wits against his, drives one man to drink, another to the grave, his daughter into the arms of a scoundrel, and nearly wrecks the entire family on the altar of Mammon.

The powerful story is acted by a cast carefully chosen for the task.

The Hunchback of Notre Dame" will be shown at the Majestic for four days, beginning Monday, September 29.

Autumn Opening

Thursday, Friday and Saturday

A tantalizing glimpse of the new modes for Fall, a lesson in the smart things to wear for that important season, an hour or two of keen pleasure—provided in our Autumn Opening on Thursday, Friday and Saturday.

Fall Millinery
Shapes and Shades Entrancing

Joy to the spirited girl, joy to the matron in the new Millinery modes for fall. With the roguish little felts and lizard skin Hats that have come for the former and the chic high crowned styles arrived for her Mother there is promise of Hat satisfaction for all. Further, for the street there are small brimmed sailors and many quill-trimmed Chapeaux, belting ribbon Hats and crushers of duvetyn. While for dress the Hat takes on larger proportions and is very likely to flaunt ostrich trim, double brim or bird of gay plumage. Interesting to note that pansy shades are fashion-favored and to see them with a tinge of red for youth.

Little Folks
Have Their Own Displays

The petite persons who hold your hearts in their hands are catered to in our Autumn Exposition. Master Bud and Mistress Mary may be outfitted from whirly curl to tiny toe with the smartness of their elders in our Children's Section. And it is not style alone that emerges from this section but sound value in the smallest item. Let brisk days coming see the wee ones in these newest of coats, hats, frocks and suits.

For a Gracious Home
This Autumn

With the fall of twilight each autumn evening, the Home scores its inning. Young and old hasten to it, rejoice in the sweet music of tinkling teacups and the radio's revelations, glean large pleasure from new books, new games, chats with good friends. And just in proportion to its charm a home is successful in keeping afamily contented through sombre fall and long winter. Make yours a home unusual. Buy for it certain precious comforts. Visit and learn the new notes in decoration.

Fashionable Frocks
To Brighten Autumn

Fashion's notebook assigns for autumn afternoon occasions satin Frocks with dashing tunics, sleeved, buttoned or bound in plaid; bengaline Dresses made party-like with huge bows at low waistlines; and some alpacas in light-hearted colors. While for street and business she calls softly tailored broadcloth and twill Frocks the best introducing Directoire and Spanish notes for spice. The Autumn Opening reveals the Frock story in interesting fashion. Attend and make note of what smartness you would like in your autumn wardrobe.

Wraps of Autumn
Choose Unusual Silhouettes

Fashion saw women wrapping their smart Coats closely about them, achieving a silhouette ever so narrow at the hem and rather full in the waist. Then striving diligently to please them further she designed these Wraps for fall, which follow the lines of a dolman so closely. Puff sleeves appear occasionally and a lining of plaid enlivens one or two. Follow this mode or choose a straightline Wrap with tunic border of fur —your style-right appearance is assured.

The Smartest Suits
Are Ensemble Costumes

The suit that triumphs this Fall is an ensemble costume, consisting of seven-eighth length coat and frock akin to it in decoration and color. You will remember the ensemble's first appearance, its acceptance, its general becomingness; and you will realize how much one can mean to you when you see the newer models. Tawny shades were chosen to enhance your loveliness and suede-finished fabrics to bring out their richness most charmingly. These are practical costumes, accommodating for so many occasions.

Autumn's Fabrics Have Come

It's a thorough delight to fashion a wardrobe one's self if the Fabrics one has to work with are charming and easy to drape. There will be many softly tailored frocks so smart for fall made at home this season for almost never before were Fabrics so likable. Suede-finished woolens and silky broadcloths enter with striped twills, shiny satins and cashmere woolens to charm the trained or amateur sewer.

Time to Face the Facts

"So much has been said against the use of patent medicines that I have had a strong prejudice against them. But after four years doctoring with six different doctors, without results, for acute indigestion, gastritis, constipation, appendicitis, and other ailments, I was said to possess, I was encouraged to try Mayr's Wonderful Remedy, seeing what it had done for a friend similarly afflicted. I also was entirely relieved of my trouble, and am sure this medicine will do all and more than is claimed for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. At all druggists.
